## Product Highlight

# Air Sizing at the Tap of a Foot Pedal!

with CONWIN'S 2011 PRECISION AIR INFLATOR!

The Precision Air provides digital timing to accurately size two air-filled balloons simultaneously at the tap of the foot pedal control. New Calibration Tool enables you to keep your Precision Air precisely calibrated at all times, eliminating the need for factory service.

### Precision Air Includes:

- Foot Pedal
- 8ft Power Cord
- Soft Pack Carrying Case

Calibration Tool in use

### Recommended For:

- Air-Filled Arches, Columns, Garlands, & Sculptures
- Balloon Walls, Murals, & Balloon Drops

Conwin products are backed by a lifetime warranty for manufacturer defects and product workmanship.

Outlets have extension tips to inflate 5" and specialty latex balloons

Remove the extension tips to inflate 9" and larger balloons
